

	Size	18mm*45mm*20mm	101-1000pcs	\$1.75
	Three-wire NPN normally open operating voltage 5V can be used for 51 single-chip low-level output		1001-5000pcs	\$1.71
			>5000pcs	\$1.65

	Photo-interrupter modules and digital interfaces comes with 13 LED build a simple circuit to produce photo-interrupter Tally 13 Interface comes with digital LED, the light blocking access to the digital sensor 3 interfaces, when the light sensor senses have blocked key signal, LED lights, otherwise off.	Photo-interrupter sensor module for arduino		SKU NO.

	specification: LJ12A3-4 - Z/BX appearance size: cylindrical straight after the 12 mm (millimeter) detection way: inductive detection distance: 4 mm (millimeter) working voltage: DC 6-36 v The output form: NPN normally open (do) according to the "third line" The shell material: copper shell protection grade: IP67 response frequency: 1 ms function use: LJ series proximity switch (also called contactless travel switch) is used in metal near the end of the action, is widely used in machine tools and other equipment control.	LJ12A3-4-Z/BX NPN Inductive Proximity Sensor Switch DC 6V-36V		SKU NO.
